30 December 1992

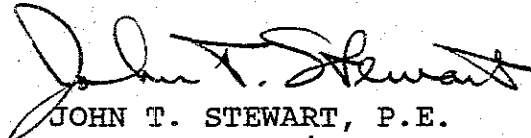

## MEMORANDUM FOR RECORD

SUBJECT: Task Order No. DE-AT06-90RL12103, Remedial Investigation/Feasibility Studies (RI/FS) for the 1100-EM-1 Operable Unit, Final RI/FS-Environmental Assessment (EA) Report and Proposed Plan Document Clearance

1. The Draft A of the subject documents have been cleared for dissemination to the U.S. Environmental Protection Agency (EPA) and the Washington Department of Ecology (Ecology) as Draft B. The CENPW Information Release Request form is enclosed.

2. The Draft A documents were the U.S. Department of Energy review copies. Review comments required technical editing and reformatting, and comment dispositions did not change the document substantially. Therefore the Draft A documents clearance is adequate for Draft B.
