Dear Mr. Bauer:

Re: Your Letter 93-LWB-053, Request for Approval to Begin W049-H

I have reviewed your submittal of the 100 percent plans and specifications, the 80 percent Design Report, and the NOD responses for the W049-H Project.

Having reviewed these documents, Ecology waives the requirements for formal submission and final approval of a 240 Engineering Report before construction begins. Ecology does not waive approved submission of this report prior to the issuance of a State Waste Discharge Permit.

Please notify this office as soon as possible of the date of flow reductions from the overhead storage at PFP and B Plant.

You may proceed with construction of W049-H.

If you have any questions concerning this letter, please call me at (206) 438-7558.

Sincerely,

*Gary Anderson*
