Re: 1100-EM-1 Operable Unit RI/FS

Dear Mr. Stewart:

During the June 12, 1990 1100-EM-1 Operable Unit Managers' meeting, we were asked if we wanted the data from the May groundwater sampling activity at 1100-EM-1 to be included in the draft RI Phase 1 report. We do want that data included and recognize that this will mean that the subject document will be delayed, but not later than August 31, 1990. It is my expectation, and I believe it is your intention, to submit the document as early as possible. Please note that the delay in submitting the draft RI Phase 1 report does not constitute justification for altering any Interim Milestones under M-15-01.

Another issue that came to my attention was that Change Control Form number M-15-89-1 "Designation of Interim Milestones for 1100-EM-1 OU RI/FS" contained two errors. The dates associated with Interim Milestones M-15-01A and M-15-01C should be November 1990 and March 1992 respectively. These dates are found in the Overall Schedule from the approved RI/FS work plan, a copy of which I have enclosed. I have also enclosed a copy of the Change Control Form to correct the errors that will be given to the Tri-Party Agreement Project Managers for signature.

If you have any questions, please do not hesitate to call me at 376-3883.

Sincerely,

David R. Einan
David R. Einan
Unit Manager
