This form documents agreement among the parties listed below authorizing classification of the subject unit as rejected, closed-out, or no action and authorizing backfill of the site, if appropriate. Final removal from the NPL of no action or closed-out sites will occur at a future date.

Description of current waste site condition:

This release occurred within the boundaries of the 218-E-10 Burial Ground. Because it would be difficult to distinguish the release from the rest of the contaminated soil, it will be consolidated into the larger site, 218-E-10.

Basis for reclassification:

This site is recognized as an unplanned release unit that may require cleanup action. Information regarding this release will be consolidated into the 218-E-10 site. Cleanup activities will be addressed during disposition of the larger site, 218-E-10.
