Dear Messrs. Senat and Hamrick:

Re: Letter, Laura Russell, Ecology, to Gene Senat, USDOE, and Doug Hamrick, WHC, PUREX/ $UO_3$  Dangerous Waste Compliance Assessment, dated May 17, 1994

Requirements for compliance with interim status standards at PUREX were outlined in the above referenced letter. One of the requirements called for performance of tank integrity assessments on specific PUREX tanks in accordance with 40 CFR 265.191. I have since learned that tank integrity assessments will not be required for terminal cleanout of the PUREX plant, except for tanks F18, U3, and U4, in accordance with the Hanford Federal Facility Agreement and Consent Order, Rev. 3, Milestone M-32-00.

Please disregard tank integrity assessment requirements as detailed in the May 17, 1994, letter and accompanying assessment report. I apologize for the oversight.

Should you have any questions or require further clarification on this issue or any items in the assessment letter and/or assessment report, please contact me at (509) 736-3024 or Moses Jaraysi at (509) 736-3016.

Sincerely,

*Laura Russell*
