TWRS EIS
COMMUNICATION RECORD

Date of meeting or telephone conversation: 12/16/94

Participants or Attendees (with organization):

Telecon. Mike Ault, US Ecology Rad Safety officer (for Hanford facility)

Subject(s) Discussed/Summary of Discussions:

- Info. on envnt. status and facility plans for on-site disposal facility (for ~~the~~ TWRS EIS cumulative effects) ~~with~~ (RL and WtC and PNL)
- US Ecology submits annual reports to the state on radiological issues, with a little descriptive material also
- They expect the disposal facility to operate until 2063 (in terms of capacity) or later (their disposal rate is slower than expected when the 2063 date was developed)
- Ault submits data to US Ecology corporate in Houston (who are moving to HQ to Oak Ridge and thus are very hard to reach. We suggest contacting RL (has no contact), Ecology (has no name), PNL (Eva Dresel) or WtC. If no luck there, he will try to get material for us.

Issues/Concerns Identified: (Unresolved questions)

- None

Required Actions:

- ~~Contact~~ Identify RL or WtC contact who receives US Ecology Annual report and obtain or contact Eva Dresel (PNL) or if all else fails re-contact Ault.

Prepared/Recorded By: A Bachrach

Date: 12/19/94
