Re: Sampling Schedule for 2101-M Pond

Dear Mr. Clark:

At our last unit manager's meeting (held on March 12, 1991), I was assured that re-sampling of 2101-M Pond would occur in May 1991. This letter is to reiterate my request to observe the sampling; I have not yet been contacted to arrange this. As previously agreed, USDOE should inform me of the date at least one week in advance of sampling so that I can make travel arrangements.

Ecology is concerned about the repeated delays for this sampling despite USDOE's repeated assurances that these are scheduled activities. As you may recall, this sampling was originally scheduled for November 1990 (see the Unit Manager's Meeting Minutes for August 6, 1990). It was subsequently postponed until January, 1991, and most recently, to May 1991. If any further delays in this sampling effort are anticipated, I am requesting that a written notice be submitted to Ecology by May 1, 1991. This notice must state the reason(s) for the delay.

Please contact me as soon as possible at (206) 438-3089 to coordinate our schedules for this sampling effort.

Sincerely,

Megan Lerchen
Unit Manager
