Description of current waste site condition:

This release is associated with the 218-W-1A Burial Ground. Because it would be difficult to distinguish the release from the rest of the contamination, it will be consolidated into the larger site, 218-W-1A.

Basis for reclassification:

This site is recognized as an unplanned release unit that may require cleanup action. Information regarding this release will be consolidated into the 218-W-1A site. Cleanup activities will be addressed during disposition of the larger site, 218-W-1A.
