Dear Mr. Goldberg:

Re: Comments on *Clean Up Verification Package for the 107-D5 Trench* (BHI-01158)

The Washington State Department of Ecology (Ecology) has completed its review of the *Clean Up Verification Package for the 107-D5 Trench* (BHI-01158 Rev. 0). Ecology has the following three comments on this document: (1) include Table 5 of the Data Quality Assessment of the 107-D5 Verification Sampling Analytical Results in section 3.5, (2) Ecology needs an indication of the total cumulative risk of this site, such as graphs of risk vs. time for radiological and non-radiological in section 5.0 (Please do not add the radiological and non-radiological risks), and (3) this document needs to express the findings and intent of the potentially responsible party, the U. S. Department of Energy (USDOE). Therefore, this document needs to be the property of USDOE.

If you have any questions or need clarification on Ecology's response, please feel free to call me at (509) 736-3036.

Sincerely,

Keith K. Holliday
