Change Title Redesignate the 200-IU-4 Operable Unit as the 100-IU-6 Operable Unit.		
Description/Justification of Change It has been determined that the 200-IU-4 Operable Unit contains waste sites (e.g. Hanford Townsite Landfill etc.) which are more closely related geographically to the 100 areas operable units and their associated cleanup activities. This change request therefore redesignates the 200-IU-4 Operable Unit as the 100-IU-6 Operable Unit. All individual waste sites previously contained within the 200-IU-4 Operable Unit are transferred to the new 100-IU-6 Operable Unit. The priority of the new operable unit remains as C, the Lead Regulatory Agency is designated as Ecology, and the unit category is designated as RPP.		
Impact of Change No impacts are identified as a result of this change.		
Affected Documents Hanford Federal Facility Agreement and Consent Order Appendix C.
