III. Project Specific Issues

- A. Permit Status
Joel Williams (FH) provided Ecology a proposed schedule for the SEPA checklist revision. Tanya Williams (Ecology) reported that the CWC and WRAP SEPA checklists are being updated, and requested expediting the schedule. Mr. Williams responded that FH's SEPA person is not available to review the SEPA checklist for two weeks. Mr. Williams suggested including T Plant with the CWC and WRAP SEPA checklist schedule.
- B. Eric Van Mason (Ecology) stated that he is addressing EPA's comments on the Part B permit, and that the CWC and WRAP Part B should be ready for submittal to RL/FH for review by the middle of June 2008. Tony Miskho (FH) noted that PNNL relayed four significant issues associated with the waste analysis plan (WAP) which were raised through EPA's review. One issue was justifying or questioning the volume attached to waste codes in the Part A. Deborah Singleton (Ecology) responded that Ecology is working with EPA to address issues and comments that are raised by EPA on the WAP. Brian Dixon (FH) stated that RL/FH need to be apprised of any changes that affect their process in finalizing the Part B.
