Dear Ms. Olinger, Mr. Brockman, Mr. Lehew, and Mr. Johnson:

The Department of Ecology reviewed the Part A Permit Application Revisions, from the United States Department of Energy (USDOE). We recognize the necessity of these submittals regarding identification of operational control and contractor name change. Ecology's approval of the Part A Forms is given in this context only, and with the following reservations:

Ecology disagrees with some of the information contained in the Part A Forms. For example:

- Application of process waste codes of D80 Landfill: 216-A-10, 216-A-36B, 216-A-37-1 Cribs.
- Discrepancies in unit descriptions: 216-B-3 Main Pond, 300 Area Process Trenches and Single-Shell Tanks.

Ecology will incorporate appropriate changes into Revision 9 of the Hanford Dangerous Waste Permit. Prior to issuing Revision 9, USDOE will have a chance to review and discuss any concerns with these changes.

If you have any questions, please contact me at 509-372-7894.

Sincerely,

Greta P. Davis
Sitewide Permit Coordinator
