

Additional Documents for 100 Area Assessment Plan Work Group  
10/30/97

Here is the list of the documents that were mentioned in the first work group meeting to be included in the list of review documents. As always, you can request documents from Appendix C and D from me at any time.

These documents are included in your packet:

1. Columbia River DART (Data Access in Real Time)  
<http://www.cqs.washington.edu/dart/>
2. EPA Biota and Sediment Data for Columbia Basin  
<http://www.epa.gov/r10earth/data/crbdata.html>
3. Columbia River Draft 303(d) List for Segments Potentially Requiring Additional Pollution Controls <http://www.wa.gov/ecology/wq/303d/index.html>
4. Abernethy, C.S. (1994). Factors Affecting the Quality of Fish Caught by Native Americans in the Zone 6 Fishery 1991-1993
5. Dunks, K. (1995). 100 Area River Effluent Pipelines Characterization Report, BHI-00538, Bechtel Hanford, Inc., Richland, Washington

These documents were either lengthy or already provided to the Trustee organizations (CRCIA). Thus, I sent copies to USFWS, and Dr. Putz. Please let me know if you would like any of these documents and I will provide you with a copy.

6. CRCIA data files on diskette
7. Paris, R.D. (1994). Environmental Radiological Surveillance Report on Oregon Surface Waters 1962-1993. Oregon Health Division, Portland, Oregon
8. Exerpts from: Pruter, A.T., D.L. Alverson (eds) (1972). The Columbia River Estuary and Adjacent Ocean Waters: Bioenvironmental Studies, University of Washington Press, Seattle, Washington
9. Becker, C.D., W.W. Waddel (1972). A Summary of Environmental Effects Studies on the Columbia River, Battelle Pacific Northwest Laboratories, Richland, Washington

I shall be out of the office November 3-7th, returning the 10th. If you want to request documents or have any questions, please contact Melanie Preusser, 372-9108.
