October 3, 1995

Mr. Jim Couey
U.S. Department of Energy
P.O. Box 550
Richland, WA 99352

Dear Mr. Couey:

Re: M-43-07A, Start Construction for W-058 (Cross Site Transfer System)

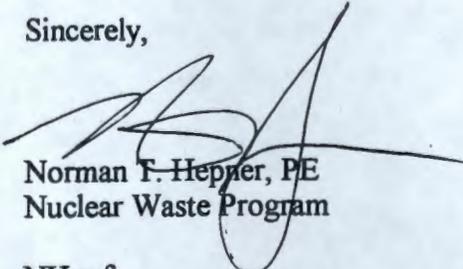

The Washington State Department of Ecology(Ecology) has been in recent discussions with the U. S. Department of Energy (USDOE) to clarify what is required to complete M-43-07B, "Start Construction for W-058." After much thought, Ecology has determined that "Start Construction for W-058" will be defined as:

- a NEPA Record of Decision on the TWRS SIS-FEIS
- award of the C-1 Construction Package for W-058

For USDOE to complete M-43-07A, both requirements must be met by November 30, 1995. If USDOE disagrees with Ecology's determination in this matter, they may notify us in writing of their objections within seven days of receipt of this letter, as provided in Article VIII of the TPA.

If you have any questions or require additional information, please contact me at 736-3048.

Sincerely,

Norman F. Heppner, PE
Nuclear Waste Program
