DRAFT A OF RESOURCE CONSERVATION AND RECOVERY ACT (RCRA) FACILITY INVESTIGATION/CORRECTIVE MEASURES STUDY (RFI/CMS) WORK PLANS FOR 100-NR-1 AND 100-NR-3 OPERABLE UNITS

The Hanford Federal Facility Agreement and Consent Order (Agreement) requires that work plans for the 100-NR-1 and 100-NR-3 Operable Units be submitted to the State of Washington Department of Ecology (Ecology) and the U. S. Environmental Protection Agency (EPA) by December 31, 1990. 100-NR-3 is a source operable unit and 100-NR-1 is an aggregate groundwater operable unit. These work plans were developed in accordance with the requirements of RCRA, as implemented through the Agreement. Ecology is the lead regulatory agency.

The subject work plans are enclosed for your review. This early submittal is based on agreements among the Department of Energy, Richland Operations Office (DOE-RL), EPA and Ecology to streamline the review process for these work plans. As part of the streamlining process, these work plans will undergo parallel review by DOE, Ecology, and EPA. Comments should be provided on computer disk, in Word Perfect format (5.1 or below), as well as hard copy.

DOE and their contractors will have a 30 day review period; all comments must be received by close of business November 12, 1990. Please assure that comments are focused to the reviewer's areas of responsibilities and expertise, that the comments are clearly legible and are reference to the applicable work plan text.

Ecology, EPA and their contractors will have a 60 day review period. All comments must be received by close of business December 12, 1990. EPA is requested to submit their comments through Ecology as provided in the Agreement.

It should be noted that current budget priorities for Fiscal Year 1991 do not include continued funding for the 100-NR-1 and 100-NR-3 Work Plans past September 28, 1990. Therefore, unless funding levels or priorities change, incorporation of any Ecology or EPA review comments will be delayed.

Please address all comments and any questions to either Mr. Thompson on (509) 376-6421 or Mr. Pak (509) 376-4978.

Sincerely,

James E. Rasmussen
for Steven H. Wisness
Hanford Project Manager
