<b>Control Number:</b> TPA-CN- 555	<b>TPA Agreement/Change Control Form</b>  <input type="checkbox"/> Change <input checked="" type="checkbox"/> Agreement <input type="checkbox"/> Information  <b>Operable Unit(s):</b> 300-FF-2	<b>Date Submitted:</b> 11/06/2012  <b>Date Approved:</b> 11/7/2012
<b>Document Number/Title:</b> Remedial Design Report/Removal Action Work Plan for the 300 Area (DOE/RL-2001-47, Rev. 3)		<b>Date Document Last Issued:</b> September 2009
<b>Originator:</b> R. F. Guercia		<b>Phone:</b> (509) 376-5494
<b>Summary Discussion:</b>  Tri Party Agreement (TPA) milestone M-016-139 requires re-vegetation of the northern third of the 300 area. Activities of this milestone are coordinated with surrounding work that is necessary to meet the M-092-16 milestone, as well as with surrounding operational activities . In order to not affect removal of the 340 vault and impact operational utilities, removal of the 300-15 process sewer that is required to be removed and re-vegetated as part of the M-016-139 milestone is restricted to those 300-15 process sewer lines falling within the boundaries of Decision Units 1, 2, and 3 of the attached drawing. Pipes running south of the decision units affect the structural integrity of Apple Street and must be retained for the movement of the 340 vaults. Those lines north and east of the decision units are required to remain in order to support interim retained facility operation.		
<b>Justification and Impact of Change:</b>  This clarification is consistent with the discussion of interim retained facilities in TPA-CN-538. Those lines which affect stability of Apple Street to support M-092-016 removal will be removed prior to the completion of the M-16-69 Milestone
