Re: Page Change to the Permit Modification for *the Research, Development, and Demonstration (RD&D) Permit, WA 7890008967, for the Demonstration Bulk Vitrification System (DBVS)*

Reference: Letter from Ecology dated November 19, 2007, to S. J. Olinger, USDOE-ORP, and J.C. Fulton, CH2M, *Modification of the Expiration Date for the Research, Development, and Demonstration (RD&D) Permit, WA 7890008967, for the Demonstration Bulk Vitrification System (DBVS)*

0074532

Dear Ms. Olinger and Mr. Fulton:

In response to your referenced request, the Department of Ecology issued a permit modification. Our modification issuance erred regarding the replacement signature page. Enclosed, please find the corrected page. Please replace the previously sent page with the enclosure (replacement signature page). The Permittees will place this updated signature page into the Permittees' copies of the RD&D.

We acknowledge that the running header in the original RD&D Permit will continue to reflect the old expiration date of December 13, 2007. To avoid reprinting the entire permit, Ecology recognizes the modified expiration date on the updated signature page to take precedence over the old running header expiration date.

If there are any questions regarding this action, contact Kathy Conaway at 509-372-7890 or Suzanne Dahl at 509-372-7892.

Sincerely,

*Kathy Conaway*

Kathy Conaway  
Permit Manager  
Nuclear Waste Program
