Dear Messrs. Izatt and Lerch:

**RE: JUNE 2, 1989 2101-M INTERIM STATUS CLOSURE PLAN SUBMITTAL**

Please note that I am returning the above noted closure plan unreviewed. This document was apparently submitted inadvertently, and does not meet the requirements, or submittal schedule within the Hanford Federal Facility Agreement and Consent Order. Specifically, closure plans for any TSD facility undergoing closure must be based on final status standards as contained within the authorized State Dangerous Waste Program (see Action Plan, section 5.3).

The 2101-M closure plan should be revised to reflect the requirements of final status standards, and should be resubmitted on or shortly before September 29, 1989 (Action Plan, Table D-3, interim milestone M-20-04).

I would appreciate it if you would ensure that future submittals adhere to Action Plan schedules so that Ecology and DOE/WHC can plan for staff workload and ensure appropriate review and response.

Sincerely,

*Roger Stanley*

Hanford Project Manager
