November 3, 1999

Mr. Glenn Goldberg
U.S. Department of Energy
P.O. Box 550, MSIN: H0-12
Richland, Washington 99352

Dear Mr. Goldberg:

In response to Mr. Ronald Gerton's letter to Mike Wilson dated October 28, 1999, concerning the U.S. Department of Energy's request for concurrence for the inclusion of waste sites 100-H-1, 118-H-5, and 100-H-30 for remedial action; the Washington State Department of Ecology (Ecology) concurs with the request. Ecology recognizes the impact remediation of the 100-H pipelines will have on waste sites 100-H-1, 100-H-30, and 118-H-5 and agrees that due to their proximity to the pipelines, they should be included in the current 100-HR-1 Operable Unit remediation activities.

If you have any questions, please contact me at (509) 736-3027.

Sincerely,

David Holland
Nuclear Waste Program
