Steven H. Wisness, Acting Program Manager
Office of Environmental Assurance,
Permits and Policy
Department of Energy
Richland Field Office
P.O. Box 550
Richland, Washington 99352

Dear Mr. Wisness:

This letter is in response to your submittal of April 30, 1994, requesting approval of the 291-B-1 Stack Monitoring System. Previous information had indicated that this system differed in some respects from the specific requirements for the continuous measurements of radionuclide emissions in Title 40 Code of Federal Regulations (40 C.F.R.) 61.93. My staff has reviewed your submittal, and based on that review I have determined that in this case the differences constitute minor changes in testing and monitoring methods, procedures and equipment. Accordingly, I hereby approve the 291-B-1 Stack Monitoring System as described for use in performing continuous emission measurements in accordance with 40 C.F.R. 61.93.

36073

If you have any questions regarding this approval, please contact me at (206) 553-4152, or Richard Poeton at (206) 553-8633 for technical matters.

Sincerely,

Jim A. McCormick, acting
for Jim McCormick, Director
Air and Toxics Division

cc: A. Conklin, WDOH
