

**U.S. Department of Energy
Hanford Site**

September 28, 2020

20-ESQ-0094

Ms. Alexandra K. Smith, Program Manager
Nuclear Waste Program
Washington State Department of Ecology
3100 Port of Benton Boulevard
Richland, Washington 99354

Dear Ms. Smith:

**HANFORD FACILITY RESOURCE CONSERVATION AND RECOVERY ACT PERMIT
UNDERGROUND PIPE MAPPING AND MARKING REPORT FOR 2020 (PERMIT
CONDITIONS II.U)**

This letter transmits the annual notification of updates made to the dangerous waste underground pipeline maps for the March 31, 2019 through March 30, 2020 reporting period. This notification is provided in accordance with Hanford Facility Resource Conservation and Recovery Act Permit, WA7890008967 (Permit) Conditions II.U.3 and II.U.4.

No updates were made to dangerous waste underground pipeline maps during the reporting period. Accordingly, this notice does not include an attachment with map update details.

As noted in the submittals for 2003 through 2018, a portion of the 200 East Area boundary fence remains down in support of the Waste Treatment and Immobilization Plant construction. This portion of fence has been marked as required by Permit Condition II.V to identify the location of the underground pipeline associated with the 216-B-3 Pond. When the fence is replaced and new boundaries are established, the 216-B-3 Pond pipeline markings will be reviewed to ensure compliance with Permit Condition II.V.

If you have any questions, please contact me, or your staff may contact Brian J. Stickney, Assistant Manager for Safety and Environment, Richland Operations Office, on (509) 376-9070.

Sincerely,
