**Summary of Discussion and Commitments/Agreements**

**1. Approval of Past UMM Minutes**

January Unit Manager Meeting (UMM) minutes are still being reviewed by the RL and the Ecology Unit managers and were not signed.

There was no February UMM. Due to the unavailability of the Video Teleconference room, the UMM originally scheduled for February 27, 1995 was rescheduled for March 6, 1995.

**2. Status of Action Items  
- NONE**

**3. Status Closure Activities**

**- Clean Closure Evaluation Report**

WHC (Mr. S.N. Luke) indicated that RL had received a letter from Ecology dated 1/31/95 confirming that the cleanup of the 2727-S NRDWS Facility site achieved MTCA B (residential) standards.

WHC (Mr. S.N. Luke) indicated that the *2727-S Nonradioactive Dangerous Waste Facility Clean Closure Evaluation Report (CCER)*, WHC-SD-EN-TI-242, would be revised to incorporate Ecology comments (shown as Attachment 5 to the January UMM meeting minutes) through issuance of Revision 0B page changes.

**- Site Restoration**

• **Restoration Letter.** WHC (Mr. S.N. Luke) indicated that a letter requesting that RL be allowed to close the unit in its current physical state (i.e., without further site restoration) was presently in RL concurrence. The content of this letter had been previously discussed with Ecology during the January 2727-S UMM. RL (Mr. C.E. Clark) stated that Ecology (Mr. J.J. Witczak) in other discussions had indicated that the site may already meet Ecology standards for site restoration. Ecology (Mr. R.E. Cordts) recognized that the requirement to complete unit closure activities by March 27, 1995 imposed by the Hanford Facility RCRA Permit would require rapid delivery of the request letter to Ecology and an expeditious Ecology response.

**- PE Certification of Closure**

WHC has procured the services of the professional engineer (PE) who witnessed site sampling and demolition in 1992 to certify closure.

**4. New Business**

- **Suspension of 2727-S Unit Manager Meetings.** Ecology (Mr. R. E. Cordts) agreed that TPA mandated UMMs for the 2727-S NRDWS Facility closure may cease because unit closure is essentially complete. Ecology agreed that a monthly status of closure activities by telephone would be acceptable in lieu of continued regularly scheduled UMMs.
