Subject: FW: Capsule Interim Storage TSD Identifier Number

Hello?

I need to get a new TSD established and I will be using this email as the document so we can activate it right away.

Can you help me with this??

Heather

Subject: Capsule Interim Storage TSD Identifier Number

Heather

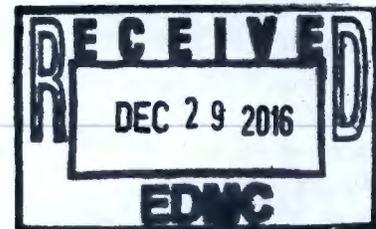

Please establish a new TSD unit identifier number for: **Capsule Interim Storage**

The new identifier number is: **S-2-12**

Please use this email as the initial document for entry into the electronic AR under this new TSD identifier number.

Thanks

Jon

Subject: FW: How does MCSC get an OUG number?

Jon,

See below for the name of the **new TSD unit**. I'm not sure if the TPA number is for the OUG or the DWMU but I assume it is for the OUG.

I had to refer back to the sections I've already written to get this straight, but this is what has been decided.

MCSC is the project.
Capsule Interim Storage (CIS) is the OUG.
Capsule Storage Area is the DWMU.

Subject: RE: How does MCSC get an OUG number?

Jon Perry called me back and said there's also a TPA TSD Identifier that will be assigned by MSA to the MCSC. Since MCSC means Management of Cesium and Strontium Capsule Project, do we know the name of the Storage Facility? Will it be the Cesium and Strontium Storage Unit or what?

Leah,

I just talked with Jon Perry and he said Ecology assigns OUG numbers. He did not know a name but I would suggest Deb Alexander or whoever your ECY POC is for the MCSC.

Subject: How does MCSC get an OUG number?

Hi Paul,

As you know, I am working with the permit for MCSC (aka W-135...aka Capsule Interim Storage...aka dry storage) and we came up with a question. How do we get an OUG number? Does Ecology provide the OUG number after we submit the PMR? Or do we need to get one ahead of time? If so, how?

Talking to Sarah, she recommended I talk with Stu Mortensen to see who did the permit writing for IDF. But, since you usually know all, I started with you 😊. If you have any ideas who I should ask, I'd appreciate those suggestions as well.

Thanks!

Leah Hare
