As part of the effort by Fluor Daniel, Inc. (Fluor) to complete the B210 construction package, the baseline documents listed below are being issued for design review. It is imperative that these drawings be complete and approved for construction (Rev. 0) by the scheduled date, February 26, 1993. Thus, potential reviewers have been given an advanced set for early review. Please assign appropriate reviewers to support this effort.

A package of documents is being distributed by Fluor under separate cover to support this review. Some items in the package are for information only and no comments are needed or desired for those (info. only) items. Reviewers should provide comments to me by COB, February 16, 1993, on the 5 drawings listed, and plan to participate in a workshop review meeting with Fluor on February 22, 1993, at 10 a.m. A telephone conference will be arranged if needed. Send comments to me (if any) by cc:Mail (in WordPerfect 5.1). Each comment should be justified with a solid technical basis, and formal comments should be transmitted in accordance with procedure HWVP-PP-5.1. The drawings being reviewed are as follows:

- | | |
|-------------------------------------|-------------------------------------|
| 1. H-2-129582 sheet 1 of 1, rev. 00 | 4. H-2-129585 sheet 3 of 4, rev. 00 |
| 2. H-2-129584 sheet 1 of 1, rev. 00 | 5. H-2-129585 sheet 4 of 4, rev. 00 |
| 3. H-2-129585 sheet 2 of 4, rev. 00 | |

Please contact me at FTS 714-975-6933 (in Irvine) if you have questions.

F. T. Clifton
HWVP A-E Resident
