Mr. Alton Haymaker
1721 Cottonwood Drive
Pasco, Washington 99301

Dear Mr. Haymaker:

221-U FACILITY

The U.S. Department of Energy, Richland Operations Office (RL), received your postcard dated October 23, 1997, which stated your preference for full removal of the 221-U Facility. This alternative will continue to be evaluated in future feasibility study reports after further characterization of the facility. Your comment will be part of the Administrative Record.

RL would like to thank you for your continued interest in the Hanford Site. If you have any questions, please give me a call on 372-2282.

Sincerely,

John P. Sands, Project Manager
Decontamination and Decommissioning Project
