Ms. J. A. Hedges  
Nuclear Waste Program  
State of Washington  
Department of Ecology  
3100 Port of Benton Boulevard  
Richland, Washington 99354

Dear Ms. Hedges:

**SUBMITTAL OF 325 HAZARDOUS WASTE TREATMENT UNITS (HWTUs)  
TEMPORARY AUTHORIZATION AND CLASS 3 PERMIT MODIFICATION REQUEST**

The U.S. Department of Energy Richland Operations Office (RL) transmitted a letter to your office on July 14, 2014. This letter stated that the submittal constituted both a Class 3 permit modification request and temporary authorization request for the 325 HWTUs.

In order to allow for 30 days advance notice of public involvement opportunities pursuant to the Tri-Party Agreement Public Involvement Plan, RL and Pacific Northwest National Laboratory (collectively, the Permittees) wish to clarify that the July 14, 2014, submittal is a temporary authorization request only. It is being made in advance of the permit modification request. The formal submittal of the Class 3 permit modification should be deemed to be postponed until August 18, 2014, to allow for the Permittees 30-day advance notice to the public prior to commencing a public comment period.

The Permittees will send the temporary authorization request notice required pursuant to Washington Administrative Code (WAC) 173-303-830(4)(e)(i)(C) not later than July 21, 2014. It will be accompanied by the 30-day advance notice of the upcoming public comment period.

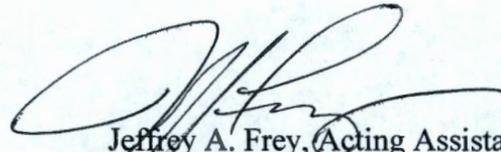

The Permittees intend to send and publish the notice required by WAC 173-303-830(4)(c)(ii) regarding submittal of a Class 3 modification and commencing the 60-day public comment period on or within seven days of August 18. This would mean that the 60-day public comment period will begin on August 18 and run through October 17, 2014. The public hearing held by the Permittees in accordance with WAC 173-303-830(4)(c)(iv) is still planned for September 4, 2014.

Ms. J. A. Hedges
