**Subject:** RE: Hanford Site 100 Area Assessment-Aquatic Resources

Hi John,  
I just made a copy of the Quality Assurance Project Plan which includes the Chromium/chinook salmon study as Appendix C. You should be receiving it in the next few days. If you can think of any other potential studies the Council should consider, please include them in your comments.  
Thanks for attending the meeting!

Jay  
Chair, HNRTC

Jay

I much enjoyed the public meeting last night and meeting some of the planners and scientists addressing Hanford issues. While I would like to receive the final reports (citations will do) for the fisheries research described last night (when they become available), I also would like to receive a copy of the detailed study plan(s) for such research. I think you said it would be possible to see a copy. Thanks.
