Richland Operations Office  
P.O. Box 550  
Richland, Washington 99352

APR 23 1989

Mr. R. R. Mooney, Head  
Environmental Protection Section  
Office of Radiation Protection  
Department of Social and Health Services  
Olympia, Washington 98504-0095

Dear Mr. Mooney:

### REGISTRATION OF RADIOACTIVE AIR EMISSION SOURCES

This letter is in reference to your February 15, 1989, letter to A. J. Rizzo, same subject. The attached serves to register all routinely reported Hanford Site sources of radioactive air emissions with the State of Washington Department of Social and Health Services, pursuant to Chapter 402-80-WAC.

Consistent with a single site permit approach provided in the referenced letter, this registration is toward a single permit for the entire Hanford Site, subdivided into six "major production, procession, or research areas." Those six areas are: (1) 100 Areas; (2) 200 East Area; (3) 200 West Area; (4) 300 Area; (5) 400 Area; and (6) 600 Area.

Each major facility within the six areas listed above is represented by a completed attached "Source Registration For Radioactive Air Emissions" form. Annual emissions from sources specific to each facility are listed on attachments to the respective registration forms.

It is a requirement that the owner/operator, or a responsible official, provide the following Statement of Compliance.

"The radioactive air emissions from the above sources meet the emissions standards contained in Chapters 173-480 and 402-80 WAC."

As the Statement of Compliance pertains to this submittal, the phrase "above sources" is to be understood as meaning the combined air emissions from all sources registered by this submittal. The signatory listed below authorizes this Statement of Compliance for the Hanford Site.
