Location Date

The groups I represent - Sierra Club Upper Columbia and Eastern Environmental - include over 1200 people who agree that the Wahluke Slope and the Hanford Reach should be protected to the fullest extent of the law, never mind the various alternatives.

The worst management plan would involve returning these lands to county oversight - which could lead to privatization. All forms of private development would run the risk of further eroding the white cliffs and endangering the fish that spawn there.

The groups I represent, like my family and myself, use the region for recreation and value it as wildlife habitat.

Please preserve, conserve, and protect the Wahluke Slope to the fullest extent of the law.

This is a postage-paid self-mailer. Please fold and seal before mailing to the address on the back.
