### Meeting Minutes Transmittal/Approval

303-K Mixed Waste Storage Facility and 304 Concretion Facility  
Unit Manager's Meeting  
Federal Building  
Richland, Washington

Meeting Held October 23, 1990

#### 303-K Mixed Waste Storage Facility and 304 Concretion, Unit Managers' Approval

Clifford E. Clark Date: 2-12-91  
Clifford E. Clark, DOE-RL, ERD

Not Present Date: \_\_\_\_\_  
Dan Duncan, EPA Region X

D. Watson Date: 2-12-91  
Dave Watson, WHC Contractor Representative

Megan Lerchen Date: 2/12/91  
Megan Lerchen, Ecology Unit Manager

Meeting Minutes are attached. Minutes are comprised of the following:

- Attachment #1 - Meeting Summary of Discussion and Commitments
- Attachment #2 - Commitments/Agreements Status List
- Attachment #3 - Agenda for the meeting
- Attachment #4 - Attendance List

91121920079

Attachment #1

Meeting Summary and Summary of Discussions and Commitments  
303-K Mixed Waste Storage Facility and 304 Concretion Facility  
Unit Manager's Meeting  
September 19, 1990

1. The NOD response tables have been submitted by WHC.
2. Ecology (Megan Lerchen) commented on the Notice of Deficiency responses, noting some responses which Ecology would not find acceptable.
  - NOD #17 Chemical concentrations must be cleaned up to the criteria stated in WAC 610. At this point, Ecology cannot accept the strategy stated in response #17. Rather than having it clean closed, the post-closure plan could be written, which would allow for management and monitoring under CERCLA cleanup. Post-closure plans can vary in what is required in detail and requirements. *173-303 - MF LSC 2/12/91*
  - NOD #27 Ecology wants cleanup to baseline unless it isn't feasible to do so.
  - NOD #28 Ecology wants cleanup to baseline unless it isn't feasible to do so. DOE (Cliff Clark) stated that consideration should not be eliminated that clean closure is possible if the soil underneath the pad is clean, however, the possibility of being able to clean close is unlikely.
3. Ecology (Megan Lerchen) stated that Ecology should be invited to view bore hole samplings of PNL.
4. Ecology (Megan Lerchen) stated that it will not accept concrete samples from the TSD unit as the sole background source for concrete. Ecology would like to see comparisons with concrete which is not subject to the same kind of contamination as concrete in 303-K.

The next meeting will be held November 29 in Lacey, Washington.
