RECEIVED
FEB 20 2002

DEAR SIR

EDMC

THIS letter is written in support of ALTERNATIVE #3 to preserve "B" REACTOR FOR PUBLIC USE. USE OF THIS ALTERNATIVE MINIMIZES ANY HAZARDS to the visiting public. It also makes later conversion of the reactor to a museum.

My interest in making "B" reactor a museum stems from the following:

- 1) Its being the first nuclear reactor to be built and operated and it deserves its rightful place in history.
- 2) I worked at the "B" PLANT for approximately 5 years as a plant engineering supervisor and a maintenance manager.
- 3) I am an active member of the "B" Reactor Museum Association.
- 4) B reactor played a significant role in shortening WWII and thus saving a number of lives.

Sincerely yours,

Joe [Signature]
