

## WASTE SITE RECLASSIFICATION FORM

Operable Unit: NA

Control No.: 2014-078

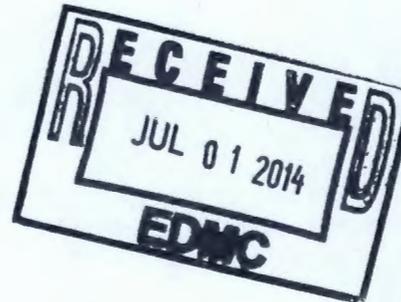

Waste Site Code(s)/Subsite Code(s):

2711-S

Reclassification Category: Interim  Final Reclassification Status: Closed Out  No Action  Rejected RCRA Postclosure  Consolidated  None Approvals Needed: DOE  Ecology  EPA **Description of current waste site condition:**

(What is the current physical state of the site? What activities have been performed?)

2711-S Stack Monitoring building is an aboveground structure adjacent to the Redox Canyon. The building contains instrumentation and was used to store equipment and lead shielding. The structure is internally contaminated.

**Basis for reclassification:**

(How does the site meet the reclassification status?)

This waste site is being Reclassified to Rejected because it does not meet the WIDS database scope, as described in Section 2.0 of TPA-MP-14, Rev. 2.

Section 2.0 states that WIDS does not document buildings or facilities that do not contain TSD units. It further states that, after buildings are demolished, the footprint will be evaluated for potential soil contamination. If present, the soil contamination will be added to WIDS as a Discovery Site.
