Dear Ms. Teel:

PROJECT W-058, REPLACEMENT CROSS-SITE TRANSFER SYSTEM, PROCUREMENT OF
SANDBERG'S BLUEGRASS SEED

Confirming discussions between Mr. C. J. Kemp of Bechtel Hanford, Inc. (BHI) and Mr. J. L. Gilbert, Numatec Hanford Corporation (NHC) is currently pursuing a contract with L&H Seeds for procurement of Sandberg's Bluegrass seed. L&H will harvest one acre of seed in 1998 for NHC with the intent that this crop will be provided to BHI for your use.

In turn, it is our understanding that BHI will provide their surplus 1997 Sandberg's seed supply to NHC. This seed will be used for the sole purpose of revegetating the Cross-Site Transfer Line corridor. Mr. Kemp estimates that this surplus will be approximately 60 pounds of seed.

If you have any questions or comments concerning this letter, please contact Mr. Gilbert at 372-3088 or the undersigned at 376-3071. Mr. Gilbert will proceed to work out the seed transfer details with Mr. Kemp.

Sincerely,

R. O. Worthington, Director
Business Management
