~NOTICE~

**TEMPORARY AUTHORIZATION SOUGHT TO
COMPLETE CONSTRUCTION OF THE
INTEGRATED DISPOSAL FACILITY (IDF)**

Pursuant to WAC 173-303-830(4)(e)(ii)(C) this notice is to inform the public that The Department of Energy – Office of River Protection (DOE-ORP) is requesting a Temporary Authorization (TA) for 180 days to complete construction of the Integrated Disposal Facility (IDF).

The construction of the IDF is on an aggressive schedule. In accordance with WAC 173-303-830(4)(e) the TA allows DOE-ORP to complete construction activities at the IDF thereby maintaining its schedule for cleanup and closure of the Hanford Site as required by the *Hanford Federal Facility Agreement and Consent Order* also known as the Tri-Party Agreement (TPA). This schedule is dependent on having a disposal pathway that is permitted to receive low-level waste and mixed low-level waste that will result from cleanup and closure activities.

Activities under the TA will be limited only to final construction (including liner system and leachate handling facilities) of the IDF.

WHOM TO CONTACT:

If you would like further information, please contact Mr. Jim Rasmussen, DOE-Office of River Protection at 509-376-2247 or you can send him an e-mail message at: James_E_Jim_Rasmussen@orp.doe.gov
