Change Title Waste Site Assignment and Reassignment to the 200-CB-1 and 200-CP-1 Operable Units in Appendix C		
Description/Justification of Change <p>This change control form is specific to the 200-CB-1, 200-CP-1, and 200-EA-1 Operable Units (OUs). It assigns and reassigns waste sites that are to be addressed by the 200-CB-1 OU or 200-CP-1 OU, due to proximity to B Plant or PUREX facilities, respectively. These changes were discussed during the 200-EA-1 OU scoping workshops conducted on February 6 and February 15, 2017. Additional description for these changes is provided in the table below. The justification for assigning or reassigning waste sites is to facilitate the decision-making processes within an OU.</p>		
Impact of Change This change assigns and reassigns additional waste sites to the 200-CB-1 and 200-CP-1 OUs.		
Affected Documents The Hanford Federal Facility Agreement and Consent Order, as amended, and Hanford Site internal planning, management, and budget documents (e.g., DOE and DOE contractor baseline change control documents; multi-year work plan; site-wide systems engineering control documents, and project management plans).
