Mr. Douglas R. Sherwood  
Hanford Project Manager  
U.S. Environmental Protection Agency  
712 Swift Boulevard, Suite 5  
Richland, Washington 99352-0539

Dear Messrs. Alexander and Sherwood:

REQUEST FOR CONCURRENCE FOR THE INCLUSION OF 1607-D-2 FOR REMEDIAL ACTION

Per the requirements stated in the Interim Action Record of Decision (ROD) for the 100-BC-1, 100-DR-1, and 100-HR-1 Operable Units, and the "100 Area Remedial Design Report/Remedial Action Work Plan," DOE/RL-96-17, the U.S. Department of Energy, Richland Operations Office (RL), is planning the remedial action of waste site 1607-D-2 under the provisions for "adjacent sites." The septic tank 1607-D-2 is situated between the 116-D-7 and the 116-DR-9 Retention Basins, and is a prime candidate for cost-effective inclusion during remediation of the retention basins. The 1607-D-2 septic tank is not 1 of the 37 waste sites identified in the ROD, and RL is requesting concurrence from the regulators for the inclusion of 1607-D-2 for remedial action.

If you want to discuss this matter further or require additional information, please contact me at 376-9552.

Sincerely,

  
Glenn I. Goldberg, Project Manager  
Remedial Actions Project
