

Change Notice for Modifying Approved Documents/ Workplans  
In Accordance with the Tri-Party Agreement Action Plan,  
Section 9.0, *Documentation and Records*

<b>Change Number</b>	<b>Document Submitted Under Tri-Party Agreement Milestone</b>	<b>Date:</b>	
TPA-CN-196	N/A	December 6, 2007	
<b>Document Number and Title:</b> <i>Sampling and Analysis Plan for Aquifer Sampling Tubes, DOE/RL-2000-59, Rev. 0</i>		<b>Date Document Last Issued:</b> October 2000	
<b>Originator:</b> John Winterhalder		<b>Phone:</b> 372-8144	
<p><b>Description of Change:</b> The <i>100/300 Areas Aquifer Tube Sampling and Analysis Instruction for Fiscal Year 2008</i>, SGW-34551, is the companion document to the <i>Sampling and Analysis Plan for Aquifer Sampling Tubes, DOE/RL-2000-59, Rev. 0</i>, which includes the quality assurance project plan and a field sampling plan. This FY-specific sampling and analysis instruction provides the locations and analyses proposed for this fiscal year's aquifer tube sampling campaign. The document includes the purpose of the sampling campaign, a brief history and description of the tube installation and tube naming conventions, and a list of the data reports. Analytical data and field measurements will be stored in the Hanford Environmental Information System (HEIS) database.</p> <p>For purposes of this change notice, the attached <i>100/300 Areas Aquifer Tube Sampling and Analysis Instruction for Fiscal Year 2008</i> is considered a change to the already approved <i>Sampling and Analysis Plan for Aquifer Sampling Tubes</i> that was issued in FY 2000.</p>			
<p><u>D Brockman</u> and <u>D Goswami and L Gadbois/A Boyd</u> agree that the proposed change modifies an approved RL <b>Lead Regulatory Agency</b></p> <p>workplan/document and will be processed in accordance with the Tri-Party Agreement Action Plan, Section 9.0, <i>Documentation and Records</i>, and not Chapter 12.0, <i>Changes to the Agreement</i>.</p>			
<p><b>Justification and Impacts of Change:</b></p> <p>The Aquifer Sampling Tube SAP requires preparation and approval of fiscal year (FY)-specific Sampling and Analysis Instruction (SAI) that will identify aquifer tube sampling locations and the analyses to be performed. Because the SAI is required by the SAP, it is considered for the purposes of this change notice, minor modification to an already approved plan (the SAP). The purpose of this change notice is to obtain Tri-Party approval of the <i>100/300 Areas Aquifer Tube Sampling and Analysis Instruction for Fiscal Year 2008</i>, SGW-34551.</p>
