Richland, Washington 99354

RECEIVED  
OCT 25 2004  
EDMC

Dear Mr. Romine:

Re: USDOE Letter 04-AMCP-0458, Request for Extension to Re-submit 200-UR-1 Operable Unit RI/FS Work Plan

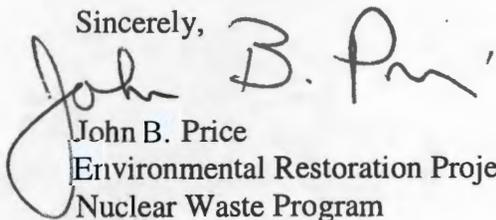

62820

United States Department of Energy (USDOE) letter 04-AMCP-0458 requested an extension to the due date for re-submittal of the 200-UR-1 Operable Unit Remedial Investigation/Feasibility Study (RI/FS) Work Plan. The Washington State Department of Ecology (Ecology) agrees to this request. Ecology received under separate cover the change request to move the West Lake site from the 200-CW-1 operable unit to the 200-UR-1 operable unit. Ecology agrees that the change request is a satisfactory reason for the requested extension.

Ecology notes that the USDOE extension letter included a block for counter-signature by Ecology's Program Manager, Michael Wilson. In accordance with Section 9.3 ("Document Revisions") of the Hanford Federal Facility Agreement and Consent Order, document revisions should be managed at the Project Manager level. Mr. Wilson's approval is not required.

If you have any questions, please contact me at (509) 372-7921.

Sincerely,

  
John B. Price  
Environmental Restoration Project Manager  
Nuclear Waste Program
