RE: 300 Area Solvent Evaporator Closure Plan

Dear Mr. Wisness:

We have reviewed the 300 Area Solvent Evaporator (300 ASE) Closure Plan NOD Response Table dated February 1, 1991. Although Ecology concurs with the responses and your plan to submit page changes, I want to make two clarifications.

First, the issue concerning cost estimates and financial liability (Comments 23 and 24) has been settled and must therefore be addressed as agreed upon in meetings subsequent to my letter dated January 28, 1991 concerning the 183-H Basins Closure Plan. Second, we expect the Appendix C changes (Comment 31) to include a new Table C-4 which identifies the listed wastes which were handled in the evaporator along with their associated dangerous waste number.

After favorable review of your page changes, we will incorporate this plan into the facility wide permit. Approval of this plan will be determined after completion of the public comment period on the facility wide permit.

Technical inquiries regarding this NOD should be directed to Ecology's 300 Area Solvent Evaporator Unit Manager, Mr. Joe Witczak at (206) 438-7557.

Sincerely,

Timothy L. Nord
Hanford Project Manager
Nuclear and Mixed Waste Management
