November 7, 1989

Mr. Roger Freeberg
Hanford Project Manager
U.S. Department of Energy
P.O. Box 550
Richland, Washington 99352

Dear Mr. Freeberg:

**Re: Notices of Deficiency for the HWVP and 616 Storage Facility
Dangerous Waste Permit Applications**

Please note that, Ecology is continuing to review dangerous waste permit applications for the Hanford Waste Vitrification Plant and the 616 Storage Facility. Due to the complexity of technical and regulatory issues associated with HWVP and a shortage of available staff for the 616 Storage Facility permit review, Ecology has not been able to complete its review within the time period specified in section 9.2.2 of the Hanford Agreement Action Plan.

We anticipate that these reviews will be completed and a notice of deficiency for each unit forwarded to USDOE/WHC by November 21, 1989. Planned contractor support should reduce these delays in the future.

Sincerely,

A handwritten signature in cursive script that reads "Roger Stanley".

Roger Stanley
Hanford Project Manager
