## Waste Site Reclassification Form

<b>Date Submitted:</b> 4/8/2004	<b>Operable Unit(s):</b> 200-UR-1	<b>Control Number:</b> 2004-036
<b>Originator:</b> C. R. Webb	<b>Waste Site ID:</b> UPR-200-W-10	
<b>Phone:</b> 373-5573	<b>Type of Reclassification Action:</b>	
	<b>Rejected:</b> <input checked="" type="radio"/>	
	<b>No Action:</b> <input type="radio"/>	
	<b>Interim Closed Out:</b> <input type="radio"/>	
	<b>Closed Out:</b> <input type="radio"/>	

This form documents agreement among the parties listed below authorizing classification of the subject unit as rejected, closed-out, or no action and authorizing backfill of the site, if appropriate. Final removal from the NPL of no action or closed-out sites will occur at a future date.

**Description of current waste site condition:**

In the summer of 1952, the ground around the 203-S Uranium Nitrate Hexahydrate storage tanks were contaminated with uranium. A maximum of 10,000 counts per minute at 25 centimeters (1 inch) was found in this area. The contaminated area was covered with blacktop and surrounded with a wooden rail fence. The fence was posted with Radiation Zone signs in 1952. The 203-S, 204-S and 205-S facilities were decommissioned in 1983. The Uranium Nitrate Hexahydrate (UNH) tanks were removed from the concrete basin. The area was covered with clean backfill material and posted with Underground Radioactive Material signs. The posted surface stabilized has a WIDS sitecode of 200-W-22.

**Basis for reclassification:**

This release occurred at the 203-S tanks in 1952. The 203-S, 204-S and 205-S facilities were decommissioned in 1983 and surface stabilized. The posted surface stabilized was given the WIDS sitecode number 200-W-22. It is recommended this site be reclassified to Reject (Consolidated) into the 200-W-22 site. Cleanup activities will be addressed during disposition of the larger site, 200-W-22.
