-------------------------	---------------------

Description of Change:
Change section 6.2.4.2, Decontamination Fluids, to allow disposal of decontamination fluids to the purgewater modular storage units in the 600 Area as appropriate.

B. Charboneau and D. Einan agree that the proposed change modifies an approved workplan/document and will be processed in accordance with the Tri-Party Agreement Action Plan, Section 9.0, *Documentation and Records*, and not Chapter 12.0, *Changes to the Agreement*.

Section 6.2.4.2 is modified by the addition of the shaded text as follows:

Decontamination fluids (water and/or nondangerous cleaning solutions) generated from cleaning equipment and tools in the onsite CERCLA Area will be contained, sampled if necessary, and transported as appropriate to the Effluent Treatment Facility or to the CERCLA modular storage units located in the 600 Area.

Note: Include affected page number(s)

Justification and Impacts of Change:

Decontamination fluids must meet the Effluent Treatment Facility (ETF) waste acceptance criteria (WAC) to be dispositioned there. Decontamination fluids containing granular sediments (silt, sand and gravel) do not meet the ETF WAC and need to be disposed to the 600 Area modular storage units which are being operated under the authority of the Comprehensive Environmental Response, Compensation and Liability Act.
