Unit Managers Meeting
304 CONCRETION FACILITY
740 STEVENS CENTER, ROOM 1416
Richland, Washington

Meeting Held February 10, 1993

304 Concretion Facility Unit Managers' Approval

The undersigned indicate by their signatures that these meeting minutes reflect the actual occurrences of the above dated Unit Managers Meeting.

Randall N. Krekel Date: 3-11-93
Randall N. Krekel, RL, Unit Manager, EAP/RPS

Not Present Date: _____
Daniel L. Duncan, EPA Region 10, RCRA Program Manager

Scott E. McKinney Date: 3-11-93
Scott E. McKinney, Washington State Department of Ecology, Unit Manager

304 CONCRETION FACILITY, WHC Concurrence

Fred Ruck III Date: 3/11/93
Fred Ruck III, WHC, Contractor Representative

David J. Watson Date: 3/11/93
David J. Watson, WHC, Contractor Representative

Meeting Minutes are attached. The minutes are comprised of the following:

- Attachment #1 - Summary of Discussion
- Attachment #2 - Agenda
- Attachment #3 - Attendance List
- Attachment #4 - Action Items
- Attachment #5 - Cement Mixer Oil Sample Analysis Request

Attachment #1

Summary of Discussion

304 CONCRETION FACILITY
Meeting Held February 10, 1993

Summary of Discussion

Review, Amend, Approve, and Distribute Prior Meeting Minutes: The January 12, 1993 meeting minutes were not available for this meeting and will be faxed to Ecology for review.

Status of Prior Action Items:

9-17-92:5, The schedule of N Reactor shut-down activities is being reviewed by RL. This action remains open.

1-12-93:1, See "Status of Ecology's review of the analytical data" below for status. This action item is closed.

Cement mixer:

Status of Ecology's review of the analytical data: Ecology (S. E. McKinney) concurred that the material on the cement mixer does not designate as dangerous waste and TCLP will not be required. Action Item 1-12-93:1 is now closed.

Status of the removal of the cement mixer: WHC (John A. Remaize and Everett A. Weekly) stated that the cement mixer will be disassembled in March and disposed of as low-level waste.

Ecology (Scott E. McKinney) asked how the oil would be disposed of. WHC (John A. Remaize and Everett A. Weekly) stated that the oil would be absorbed and disposed of as either low-level waste or low-level mixed waste, depending on how it designates. The oil will remain on the Hanford site. A copy of the sample analysis request paperwork (Attachment 5) was provided to Ecology.

Status of rewriting the *Policy C-1 Soil Cleanup/Remediation for Hanford*:

Ecology (Scott E. McKinney and Megan E. Lerchen) stated that there has been no change in the status of the rewrite. Ecology did state that Soil Cleanup/Remediation policy should be included in the next edition of the Dangerous Waste Regulations (WAC 173-303).

Discuss finalization of the issue resolution regarding implementation of the original *Policy C-1 Soil Cleanup/Remediation for Hanford*: The RL (Randy Krekel) and Ecology (Scott E. McKinney) agreed to hold the dispute resolution in abeyance due to the pending inclusion of the MTCA clean-up standards in the next update of the Dangerous Waste Regulations (WAC 173-303).

93129400042

New Business:

No new business.

Next Meeting: The next UMM has been scheduled for 2:00P to 4:00P, March 10, 1993, in Richland, WA.
