April 18, 1995

Ms. Ellen Mattlin
U.S. Department of Energy
Richland Operations Office
P.O. Box 550
Richland, WA 99352

Dear Ms. Mattlin:

Re: Hanford Patrol Academy Demolition Site (HPADS) Closure Plan (T-11-1) ³⁹⁹¹²

The Washington State Department of Ecology (Ecology) concurs with the HPADS Closure Plan (DOE/RL-93-39, Revision 1).

During the monthly Unit Managers meeting, March 21, 1995, a risk analysis report, titled "Risk Associated with the Napalm Canister at HPADS," was received by Ecology. The risk analysis report addressed the safety concerns related to the Napalm Canister at the HPADS. Ecology agrees the risk analysis is adequate to address the safety concerns.

The U. S. Department of Energy shall include the Closure Plan in the Hanford Facility Wide Permit through the forthcoming modification. The risk analysis report will be included as a permit condition.

If you have any questions, please contact me at (509) 736-3035.

Sincerely,

Fenggang Ma
