Mr. Timothy L. Nord  
Hanford Project Manager  
State of Washington  
Department of Ecology  
Mail Stop PV-11  
Olympia, Washington 98504-8711

Dear Mr. Nord:

NOTICE OF INTENT FOR EXPANSION UNDER INTERIM STATUS FOR THE  
222-S LABORATORY COMPLEX--219-S WASTE HANDLING FACILITY (WA7890008967)  
(TSD: TS-2-1)

In accordance with the Washington Administrative Code (WAC) 173-303-281, the DOE Field Office, Richland (RL) and the Westinghouse Hanford Company (WHC) are submitting a Notice of Intent (NOI) for expansion under interim status for the 222-S Laboratory Complex (222-S Complex)--219-S Waste Handling Facility. The 219-S Waste Handling Facility is located within the 222-S Complex in the 200 West Area of the Hanford Facility. The specific information required under the WAC 173-303-281 for expansion, including the State Environmental Policy Act Environmental Checklist, is provided in the NOI.

The WAC 173-303-281 requires that an NOI be submitted for public review 150 (calendar) days before the revised Part A permit application is submitted to the State of Washington Department of Ecology (Ecology). The revised Part A permit application will be submitted with the 222-S Complex Part B permit application by December 31, 1991 (Hanford Federal Facility Agreement and Consent order Milestone M-20-22), which is less than the required 150 day limit. On July 30, 1991, a meeting was held with Mr. T. M. Michelena of Ecology to request a waiver of the NOI requirement for the 219-S Waste Handling Facility. Mr. Michelena indicated that a waiver of the NOI requirement would not be granted; however, Mr. Michelena did indicate he would reduce the 150 day limit to allow submittal of the revised Part A permit application with the Part B permit application.

Mr. T. L. Nord
