

## SAVE THE GRAY WHALE NURSERY

Lorraine Dukes  
541 Sudden Vly.  
Bellingham, WA 98226-4811

the San Ignacio  
ry on Mexico M  
to stop  
from building

the world's largest salt factory at the Lagoon.

I urge you to protect the ecologically  
significant lands at Hanford. DOE  
lands should be managed  
as a permanent state wildlife  
Refuge to provide a large crescent  
of protected habitat lands.

There should be no agriculture  
commercial mining or livestock  
grazing permitted. The following  
areas are critical & deserve  
separate decisions: Mc Kee Ranch,  
Wahluke Slope, Hanford Reach,  
Columbia  
Ecology
