Ms. L. E. Ruud
 Permit Specialist
 Nuclear Waste Program
 State of Washington
 Department of Ecology
 1315 West Fourth Avenue
 Kennewick, Washington 99336

Dear Ms. Ruud:

REVIEW OF THE HANFORD FACILITY RESOURCE CONSERVATION AND RECOVERY ACT (RCRA) PERMIT, DANGEROUS WASTE PORTION, REVISION 5, MODIFIED ON MAY 18, 1999

50749

On May 18, 1999, the Washington State Department of Ecology (Ecology) modified the Dangerous Waste Portion of the Hanford Facility RCRA Permit. Revision 5 of the RCRA Permit added five Bechtel Hanford, Inc. (BHI) managed units undergoing closure; and incorporated Class 2 and 3 modifications to emergency preparedness documentation, personnel training, waste analysis, and process information to various unit-specific chapters.

The U.S. Department of Energy (DOE) has decided not to appeal Revision 5 of the RCRA Permit, based on two letters you recently issued, which quickly resolved Permittee issues with the 616 Nonradioactive Dangerous Waste Storage Facility, 325 Hazardous Waste Treatment Units, and 300 Area Process Trenches. DOE is requesting that Ecology issue a response to comments for Revision 5 of the RCRA Permit, Dangerous Waste Portion, as required per Washington Administrative Code (WAC) 173-303-840(9). DOE is further requesting that Ecology strengthen formality for the "Notice to the Permittee" for issuance of the RCRA Permit, so that notification is more consistent with other sections within WAC 173-303-840 requiring hand delivery or use of certified mail.

JUN 17 1999

Should you have any questions regarding this information, please contact Mary E. Burandt, RL, on (509) 372-4617; Susan M. Price, Fluor Daniel Hanford, Inc., on (509) 376-1653; Roger J. Landon, BHI, on (509) 372-9209; or Alice K. Ikenberry, Pacific Northwest National Laboratory, on (509) 373-5638.

Sincerely,

for James E. Rasmussen, Director
Environmental Assurance, Permits,
and Policy Division
