Subject: Tweaked list of accomplishments

Accomplishment1.doc

Hi Tom - attached is a tweaked version of our accomplishments. It will give you what you need for our meeting with Keith Klein this week. However, it's not ready to go back on our web site without some discussion with member trustees.

Here are some changes I made: I took out references to the Native Seed Bank Nursery and the Native American plant nursery. I don't think either of those actually happened.

I took out reference to pump and treat given it's current acceptance.

I took out references to "growing from a loosely organized group to a formal council" as well as the one that talked about meeting regularly.

I took out the last sentence in the ERDF mitigation discussion. I thought the issue was that mitigation language was NOT included in the ERDF ROD...

Whose language is "objective of ecological restoration: to reestablish high diversity, self-perpetuating native plant communities that exist in dynamic equilibrium with the natural environment"? Can we say this in a simpler way?

I like Laurie V's suggestion to date all the accomplishments.

So here is something you can use for now. And I'll be in contact with the Council to finalize a version that can go back on the web site.
