REQUEST FOR COMMENTS ON THE DRAFT SCREENING ASSESSMENT AND REQUIREMENTS FOR A COMPREHENSIVE ASSESSMENT: COLUMBIA RIVER COMPREHENSIVE IMPACT ASSESSMENT (CRCIA) DOCUMENT, DOE/RL-96-16, REVISION 0, UC-630, MAY 1997

The U.S. Department of Energy, Richland Operations Office, is pleased to provide the subject document for your review.

This document consists of two parts. Part I is the screening assessment of risk from Hanford-derived contaminants to the river and its users. The basis for Part I is the four previous reports on contaminants, human scenarios, species and data used in the subject document. For your information, all of the comments received on the earlier reports and the authors' responses are published in the attachment on diskette. Part II consists of the requirements for a comprehensive assessment and was written by the Tribal and stakeholder representatives on the CRCIA Team. These requirements define what would be acceptable to the CRCIA Team's participants as a comprehensive assessment for work done in the next phase of the CRCIA. The CRCIA Team would appreciate your comments, including your views of how a more comprehensive assessment should be accomplished. All comments will be addressed in the final revision of this document, expected to be released on September 30, 1997.

Please provide written comments to me by June 17, 1997, at the U.S. Department of Energy, Richland Operations Office, P.O. Box 550, MSIN H0-12, Richland, Washington, 99352-0539. If you have any questions, I can be reached at (509) 376-6192.

Sincerely,

Robert K. (Bob) Stewart

Robert K. Stewart, Project Manager
Groundwater Project
