Dear Messrs. Day and Nord:

DUE DATE EXTENSION FOR 105-DR LARGE SODIUM FIRE FACILITY CLOSURE PLAN NOTICE OF DEFICIENCY RESPONSE TABLE

The DOE Field Office, Richland (RL) and Westinghouse Hanford Company (WHC) request a 28-day due date extension for submittal of the Notice of Deficiency (NOD) response table for the 105-DR Large Sodium Fire Facility Closure Plan. The 28-day extension would change the due date for the NOD response table from October 25, 1991, to November 22, 1991. This extension is required to prepare and submit a comprehensive response to the August 23, 1991, NOD received from the State of Washington Department of Ecology. The extension request was informally discussed with Scott McKinney of your staff on September 30, 1991.

In addition, the August 23, 1991, NOD requested submittal of a revised closure plan by October 25, 1991. RL and WHC request that submittal of Revision 1 of the closure plan be delayed until most of the August 23, 1991, NOD comments have been resolved. This will prevent unnecessary document revision and duplication.
